Government Rebates

Solar
Victoria

VEU & Solar Victoria Rebates: Save Thousands with Platinum Plumbing Plus

What are VEU and Solar Victoria rebates?

VEU and Solar Victoria rebates are Victorian Government incentives that reduce the upfront cost of energy-efficient upgrades and solar systems — helping you save money immediately and long term.

What can I claim rebates on?

VEU Rebates:

- Hot Water Heat Pumps, energy-efficient heating and cooling systems

Solar Victoria Rebates:

- Solar PV systems, solar hot water, and eligible interest-free loans
- Eligibility depends on your property and existing systems.

Who is eligible?

- Most Victorian households qualify.
- Eligibility is based on your location, current equipment, and (for Solar Victoria) household criteria.
- We check everything for you before you commit.

How much can I save?

- Savings vary, but many customers save thousands off the upfront installation cost, plus enjoy ongoing reductions in energy bills year after year.

Is the rebate applied upfront?

- Yes. Approved rebates are applied directly to your quote, reducing what you pay — no waiting, no cash-back claims.

Do I need to do any paperwork?

- Platinum Plumbing Plus handles all rebate paperwork and approvals from start to finish. You will just need to provide Solar Victoria with a few details.

Why upgrade now?

- Rebate values and eligibility rules can change at any time. Acting now helps you lock in current government incentives before they're reduced or removed.

Why choose Platinum Plumbing Plus?

- Local, family-owned business
- Accredited and compliant installations
- Trusted advice and quality products
- Ongoing local support and after-sales care
- No hidden costs

Ready to save?

- Book a quick eligibility check today
 - ✓ Fast & obligation-free
 - ✓ Rebates applied upfront
 - ✓ Local experts you can trust

Platinum Plumbing Plus – smarter upgrades, real savings.
